

CURTIS JETT MAY CONFESS

States Attorney Expects Him To Tell the Story of Many Crimes, Very Soon.

FRIENDS LEAVING

The Accused Has But One Attorney To Defend Him in His New Murder Trial.

Cynthiana, Ky., Sept. 18.—Thomas Cockrill, prosecuting witness in the case against Curtis Jett, whose trial for the murder of James Cockrill began Thursday, created a sensation when he told of the statement of Jett's mother, Mrs. Hagins, that her son would make a confession involving prominent persons at Jackson, Ky. If the friends in former trials did not come to his assistance.

According to Cockrill, Mrs. Hagins, in appealing to him to stop the prosecution, named all the prominent people at Jackson, Ky., who helped her son in the Marcus murder trial and said they were now deserting him in the Cockrill case. She reminded Thomas Cockrill that he and Curtis Jett were first cousins, that the same blood coursed their veins, and her boy was not the one responsible for the death of his brother, Jim Cockrill, and others.

Jett Offers Terms.

After her conference with Cockrill and the attorneys for the commonwealth during the noon recess, she continued them during the afternoon and evening with Daniel Hust, the father of Mrs. Marcum, Judge John Patrick, Attorney W. W. Vaughn and others, asking them to intercede for her son.

Another conference is to be held with these parties and others, and it is currently reported that Curtis Jett may then make a confession. According to the best information from those who were in the conference Curtis Jett offered through his mother to make a confession implicating others in the feud murders in Breathitt county, but he insists on saving his uncles, and for this reason the commonwealth would not accept his overtures.

Few Witnesses for Prisoner.

It is stated that the commonwealth attorney would not accept anything except a clean breast of the whole affair, and they seem to be confident that such a confession will be forthcoming before this trial is concluded, as the prisoner thinks he has been deserted by those who were expected to stand by him.

CAPTAIN HILL MAKES DENIAL

Says Statement Made in Regard to His Record Are False—Was Never in the West.

Madison, Wis., Sept. 18.—Requisition of the governor of Minnesota for Chas. R. Hill, ex-police captain of Minneapolis, arrested on charge of receiving bribes from dive keepers, honored at the executive office today. Sheriff Dreger and deputy sheriff left this afternoon for Janesville to secure prisoner, will leave with him for Minneapolis tonight.

C. R. Hill, former police captain at Minneapolis, visited the Gazette office this morning. He says that the statements made in regard to his record are false in every particular. He asserts that he has never been in the west and was not traced to Utah, Washington, Nevada, or Oregon. He came direct from Minneapolis to Milton Junction about a year ago.

Destination No Secret. His coming was no secret. He did not leave Minneapolis until after the grand jury had adjourned and his whereabouts were known to many people in that city. He left his postoffice address with the Minneapolis postoffice when he left and has received mail from that point each week. Anyone who wished to know of his address could have found it very easily.

Never Tried to Get Away. He had never tried to get away from the authorities at Minneapolis and would have returned at once had he known of any reason for his going. He feels that the sensational stories circulated about his movements are working great harm to himself and family who have a standing in the community.

Is a Taxpayer

Capt. Hill came to Milton Junction first in 1895. He has spent three and a half years there, altogether, and is a taxpayer in this county. It was when he went there fifteen years ago that he was in the business of making atlases.

Lloyd G. Spencer, better known to Madison students and others as "Babe," suffered a stroke of paralysis several days ago, and is in a precarious condition. For several years past "Babe" has been the mascot of the university football team.

FOOTBALL TALK AT THE UNIVERSITY

Thirty-Seven Men Have Reported for Practice Thus Far This Season.

Reports say the Wisconsin football squad was swelled to 37 yesterday afternoon, with more to come. Capt. Abbott, the third of the old men to show up for practice, was out for the first time. Fogg and Bertke joined the squad a day or two previous. Bush will be here in a day or two, and Vanderboom will be out as soon as he finishes a little special studying he is engaged in at present, and passes two examinations. These five are all of last year's regulars, who will be back. There are plenty of candidates for the placing of the missing ones, and several of them look promising, but whether they can make good in varsity company remains to be seen.

Hemp and Larish are trying hard to qualify for Skow's place at center and will soon have a competitor in the person of Roy Chamberlain. Bertke, Price and Millman are principal contestants for the guard positions; Millman still has a little trouble over a study to adjust; Washer, a new man from St. Louis, and Findlay, a sub last year, are being tried out at tackle; Abbott and Bush will undoubtedly play end. Fogg has the call on his old position, quarterback, but has some strong competition in Cecil Schreiber and Jones; Bain and Vanderboom lead the field of half backs, with Hurd of Eau Claire, Kuhmsted, Jones, Wrabetz, and a few others close behind. Perry, a husky lad from Rice Lake, Hetzel and Snyder, are at present leading competitors for fullback.

The candidates were given their first drill at tackling the dummy yesterday afternoon, and were then put through the formations at a lively pace. Scrimmage practice will not begin before next week.

MAYY KILLED IN JEWISH TROUBLE

Desperate Encounter Between Peasant and Hebrew at Mghileff Results in Trouble

St. Petersburg, Sept. 18.—Fierce fights between Jews and Christians, in which four Christians and two Jews were killed and many persons were seriously injured, are reported from Gomela in the government of Moguloff.

The disturbances arose Sept. 11 from a dispute between a peasant and a Jewish dealer. The police intervened, and, according to the version published here, the Jews threw stones and fired on the police, several of whom were injured.

The disturbances were renewed three days later, some Jewish booths being demolished. The Jews attempted to prevent the destruction of the booths, and twenty persons were injured on both sides. Troops then arrived on the scene and were received with shots from the Jews. The military returned the fire and ultimately restored order.

ROBBERS LOOT EXPRESS OFFICE

Burglars Get \$1,049 From the Wells Fargo Company.

Santa Barbara, Cal., Sept. 18.—Burglars entered the Wells-Fargo Express office here and robbed the safe of \$1,049 in coin and currency. The rear door was entered with a key and the safe opened in the regular way by the combination, which was found in a book in a drawer of one of the desks in the office. About \$300 locked in a separate compartment of the safe was overlooked by the burglars.

SPARKS FROM THE WIRES

Judge Frank B. Gany of Abbeville has been appointed to preside over the court in Lexington, South Carolina, at which J. H. Tillman, formerly lieutenant governor, will be tried next Monday for the assassination of N. G. Gonzalez. There are over 500 witnesses.

The failure of John Wrigley & Sons, a firm prominent in the cotton trade, was announced in London yesterday. The house, it was stated, had sustained heavy losses in trading and could not meet the differences in the clearing-house.

The Austrian government has definitely decided to send an official exhibit to the St. Louis Exposition of an exceedingly representative character. It has been arranged to erect an Australian pavilion in which exhibits will be placed by the ministries of public instruction, railways and commerce, and exhibitions of fine art will be held.

Lillian Russell is ill with tonsillitis in New York. Grover Cleveland, wife and five children have returned from Buzzard's Bay, Mass., to Princeton, N. J.

Professor Simon Newcomb of Johns Hopkins university, who sailed Sept. 16 for America, received over 100 acceptances of invitations sent to distinguished European scientists to attend the science congress to be held at the St. Louis exposition.

Spencer Lyttelton, a nephew of the late William E. Gladstone, whose secretary he was for twenty-three years, with the exception of a short period, when he was assistant secretary to Earl Granville, has arrived at San Francisco from England, en route to New Zealand.

Here's the old woman who lives in a shoe—If you were in her place, pray, what would you do?

STARTLING NEWS

A New York Stock Ticker Report from Serbia, Announces That King Peter Has Been Assassinated... It Has Not Yet Been Confirmed

(Special By Scripps-Mellae.) New York, Sept. 18.—The stock ticker sends out the following dispatch which comes direct from London on the stock exchange cable. It is reported in Paris that King Peter of Serbia has been assassinated. The report, it is asserted, is based upon most reliable authority.

London, Sept. 18.—The report from Paris that King Peter of Serbia had been assassinated is generally set down as a house canard.

BALFOUR MAY BE NEXT TO RESIGN

LONDON IS MUCH WROUGHT UP OVER THE SITUATION.

CHAMBERLAIN'S OPPORTUNITY Should Balfour Step Out It Is a Possibility That Chamberlain Would Organize Cabinet.

(Special By Scripps-Mellae.) London, Sept. 18.—The Exchange Telegraph bears on high authority that the resignations of other members of the cabinet may be handed in shortly. That the resignation of Chamberlain and two associates has created a surprise almost bordering on consternation as putting it mildly. It is the sole topic of conversation of the entire kingdom today. Many rumors are current, one being that the premier, Balfour, will have to resign on account of the inability to find men to fill the vacancies.

SOCIETY MEETS AT MRS. TALLMAN'S

Eastern Star Study Class Holds First Meeting of the Year.

The Eastern Star Study class held the first meeting of the season at the home of Mrs. Tallman, 119 Madison street, yesterday afternoon. A large number were present and the gathering was a most successful one. The program was devoted to readings from well known authors, interspersed with musical selections both instrumental and vocal. The meeting was opened with the annual address by Mrs. Ada P. Kimberley. Miss Kittie Ashcraft read selections from the works of Lord Tennyson. Mrs. Amanda Butts discussed Lady Clare and this part of the program was followed by a pleasing musical number, "The Song of the Brook," by Mrs. Winnie Carle. Mrs. Tallman was assisted in entertaining by Mrs. Winbiger. After the selections dainty refreshments were served by the hostess. The club will next meet on October 1st and current events in history will be studied.

TALKS OF THE BOUNDARY LINE

Attorney General Findlay Occupies Times of the Alaskan Tribune.

London, Sept. 18.—Upon the presumption of the Alaskan boundary arguments before the International tribunal today Attorney General Findlay entered into a lengthy discussion as to what constituted the southern boundary. The only enlightening feature of his argument, which occupied the whole session, was when Sir Robert showed that the United States had prepared two arguments regarding a certain clause in the Hudson Bay company's agreement with Russia. Lord Alverstone broke in with the remark: "Ah, but that shows the United States counsel have great resource." The attorney general is expected to finish his argument on Monday.

FRANZ JOSEF IS NOT TRACTIBLE

Emperor of Austria Says That Hungarian Officers Shall Not Use Their Language.

Vienna, Sept. 18.—Emperor Franz Josef today issued an army order declaring he will never consent to the demands of the Hungarian party, who insist on the use of their own language by officers in giving commands to the Hungarian section of the forces. Dealing with this question, which precipitated the political crisis, the emperor said: "I am bound and determined to uphold the army's present well tried regulations. Certain one sided efforts, calculated to undermine the sterling structure of the army, must have it borne home that I will never give up the rights and prerogatives which are guaranteed to me as the supreme commander. United and undivided as it is, so shall my army remain."

The emperor's army order caused an immense sensation in Austria and in Hungary. The pathetic assurance that he will never give up his rights and prerogatives as chief commander sounds like a war proclamation against the known Hungarian national army demands. The impression caused by the imperial order is almost indescribable.

Hitherto the emperor has been regarded as the most silent monarch in Europe. Never before, even in the gravest constitutional conflicts, has he used such language as contained in today's army order. It is taken elsewhere as being the beginning of a conflict between the throne and the Hungarian parliament.

SEE CRISIS IN UNITED STATES

Many Troubles Are Waiting for Germany, Says Herr Bebel.

Dresden, Sept. 18.—Herr Bebel delivered at the Social Democratic congress today his promised attack upon the revisionists. His speech, lasting four hours, dealt with the political situation in Germany. Herr Bebel declared that economically Germany was hastening toward a grave crisis in the United States. In spite of this crisis the imperial government was persisting in increasing the expenditure on the army and navy and colonial expansion. Continuing he said: "We will strengthen the government by voting arms for the soldiers to use against us. We must stir up the people to a recognition of the real situation under a class government and undermine in every way, with a view to ultimately destroying it, the existing capitalist system."

BLAST OF GAS WRECKS A HOUSE

Two Persons Fatally and Two Severely Burned at Marion, Ind.

Marion, Ind., Sept. 18.—The house at 1606 McClure street, occupied by the Lucabel and Crabtree families, was partly destroyed at 1 o'clock in the morning by an explosion of natural gas. Mrs. Hattie Lucabel was terribly burned and probably fatally injured. Ora Crabtree, 6 years old, also was fatally burned, and his twin sister was severely burned. Mrs. William Crabtree, mother of the children, was burned in an effort to save them.

BANK NOTE COUNTERFEITS

Washington, Sept. 18.—Chief Wilkie of the secret service announces the discovery of two new national bank note counterfeits. One is a \$10 note on the Peoples National Bank of Roxbury, Mass., and the other on the Waltham National bank at Waltham, Mass.

BRIEF NEWS OF THE STATE.

Pres. Van Hise, wife and daughter returned to Madison, Wis., after a summer in Europe. Dr. Van Hise declined to discuss his policy as president of the university. C. Christanson was taken to a hospital in Racine yesterday, suffering with typhoid fever. Christansons was the hired man of a milk peddler, whom it is alleged, sold milk to over twenty families where the disease exists. Four new cases were reported to the health department yesterday. George Hassinger of Racine is lying at the St. Luke's hospital in a critical condition from the effects of blood poisoning. He undertook to drive a strange cat from a livery stable, when the feline turned upon him and bit him on the hand and fingers. It is doubtful if he will recover from the injury.

A franchise for forty-five years has been granted by the city of Plymouth to the Sheboygan Light, Power and Railway company to operate a street car system.

Fred Krahnke of Manitowoc, chief machinist in the United States navy, has informed relatives of his departure early in October on a 16,000-mile sea voyage with the government fleet of torpedo boat destroyers, then to the Asiatic station via the Suez canal, and thence to China. Mrs. James Cleary, frightened by the explosion of dynamite at the Standard Oil company plant at Racine, when railroad ties and rocks struck her home, is in a critical condition and it is feared that she may not recover.

THREE CABINET OFFICERS OUT

Joseph Chamberlain's Resignation Is Accepted by King Edward, as Are Two Others.

BLAMES BALFOUR

The Question of Tariff is the Cause of the Resignation of the Colonial Secretary.

London, Sept. 18.—The long threatened disruption of the Balfour ministry became a reality when it was officially announced that three members of the cabinet had resigned and that their resignations had been accepted by the king, as follows: The Rt. Hon. Joseph Chamberlain, secretary of state for the colonies. The Rt. Hon. Charles T. Ritchie, chancellor of the exchequer. Lord George Hamilton, secretary of state for India.

Disagree Over Food Tax. Secretary Chamberlain resigned because he could not come to an agreement with Premier Balfour over the question of a tax on food and raw materials. In the general features of a proposed new fiscal policy the two men agree; but the premier declines to advocate a tax on food and Mr. Chamberlain does not believe commercial unity between England and the colonies can be achieved without such a tax.

Chancellor of the Exchequer Ritchie resigns because he is at variance with Premier Balfour's policy of retaliatory tariffs, just as he is disagreed with Chamberlain's scheme for preferential duties. More Vacancies Likely. More resignations are expected. It is rumored that Lord Balfour of Burleigh, secretary for Scotland, has actually resigned. It is expected that the duke of Devonshire will take this opportunity to retire, as it is suspected that he is opposed to the radical changes in fiscal policy favored by Balfour. Slate makers are busy. Austen Chamberlain is selected by some for chancellor of the exchequer. Lord Milner and the earl of Selborne are referred to as possible colonial secretaries. Some believe that William St. John Brodrick will take the India office and that Arnold-Foster will succeed him in the war office.

Premier Balfour will go to Balmoral at once, and the names of the new cabinet ministers will be announced soon. Demand Resignation. The demand for the resignation of Lord Lansdowne as minister of foreign affairs is insistent. He left for Balmoral, and there are rumors that he may have decided to yield to popular pressure and withdraw from the cabinet.

The secret of the ministerial crisis was well kept, for Mr. Chamberlain's resignation was in Premier Balfour's hands Sept. 9. The cabinet met on Sept. 13, and, although the resignation must have been a matter for prolonged discussion, the session was followed only by a vague rumor that the colonial secretary would resign.

Mr. Chamberlain is at Birmingham, where, strange enough, his resignation was a greater surprise even than in London. He is apparently busily engaged in preparing his campaign, but declined to make any public statement.

For Imperial Union. Mr. Chamberlain in his letter of resignation announces that he will devote himself to the work of explaining his favorite policy for an Imperial union of England and her colonies. This is taken to mean that he will appeal to the country on his demand for a preferential tariff policy.

The correspondence between Mr. Chamberlain and Premier Balfour indicates that their disagreement came over the proposal to impose a tax on food and raw materials, the colonial secretary favoring such a tax and the prime minister opposing it. The colonial secretary refused to yield and resigned in order to relieve the premier of an embarrassing dilemma.

By adopting them, sent them broadcast throughout the country.

Gompers Approves. It was reported that this action of the Central Labor union had received the formal approval of President Gompers as representing the American Federation of Labor. It was said, however, by a responsible official of the Central Labor union that Mr. Gompers had not figured in the matter so far as the Central Labor union was concerned. Such action, he pointed out, would be contrary to the constitution of the federation, which inhibits it from taking sides in political matters.

The gas engine business of the farmette iron works is to be moved to the Heights, Ill.

## GALLANT THIRD AT CAMPFIRE

VETERANS TELL STORIES OF BIVOUAC AND BATTLE.

### TWENTY CITIES REPRESENTED

Incidents of Chancellorville and Libby Prison Recalled—J. F. Carle Acted as Chairman.

There was a goodly gathering at the first informal campfire of the famous Third Wisconsin regiment at the Grand Army hall last evening. Besides the ladies and sons of Veterans, who had been invited, twenty-eight survivors from twenty different cities of the state and country were present at the meeting.

#### Opened With Song

Col. E. O. Kimberley was indisposed and begged to be excused that he might be in shape for the meetings today. In his absence J. F. Carle took charge of the campfire. After singing "John Brown's Body" to the piano accompaniment of Mrs. Gertrude Winbiger, Chairman Carle addressed the meeting.

#### Comrade Carle's Address

He said that the world was made up of all classes of men. Some had been willing to sacrifice health and fortune to build up their nation and he was proud that he was old enough, that he had a father and mother who were patriotic enough to let their strapping of a boy go to the front in '61. The veterans of the Third regiment had come home from the war to take up various avocations of life and had made as good a record in citizenship as in war. When turned loose after the war, many had said: "Those boys will never amount to anything." Yet they had been forging on and on these forty years until today, gathered at their reunion, they might be proud of their records.

#### Courage to Break a Habit

Some had fallen by the wayside, but he wished to say that it required more courage, when addicted to a habit to break loose and say: "I'll be a man," than to face the cannon's mouth. It required manhood to be a man.

In concluding he reviewed the lives of Lincoln, Garfield, and Grant and spoke of the flag flying not only over the south but in the far east. He recalled the incident of April 13, 1861, when on a dry goods box near Sheldon's store it was announced that Fort Sumpter had been fired on and Congressman Charles W. Williams addressed the great gathering. Recruits were raised soon after that and the Third Wisconsin was among the first enlisted.

#### Anecdotes Compulsory

The chairman said that he was going to call on every comrade for remarks. Jesse Longfield would act as "street commissioner" and lead all who refused to respond in disgrace around the hall. Comrade Heffert was one of the first to be called on. He said that he had always had a tender spot in his heart of Janesville. It was a splendid good place for Sherman's bummers to lounge. He told an anecdote of two men of the regiment who lay wounded, side by side in the sun, for three days on the field at Chancellorville. One was an officer and the other a private, and they were taken to different hospitals. He was present at their first meeting twenty-five years later.

#### March into Charleston

After the singing of "Tramp, Tramp, Tramp," Captain Slagg was called upon. The singing of "John Brown's Body" had reminded him of the march from Harper's Ferry to Charleston, when, as the soldiers passed the spot where John Brown was hung, the band struck up and from 10,000 lips came the words of the song.

#### The Road to Libby Prison

Comrade Post recalled the charge at Slaughter mountain and his forced march with other Yankee prisoners to Libby prison. Comrade Collins told an anecdote of the recruit, "Dad" Stees, and the syrup jug. Several of the ladies were called upon and each avowed that she was proud to be a soldier's wife.

#### Lieut. Thomas Nelson

Lieut. Thomas Nelson of London is one of the notable figures at the reunion. He lost his right arm and was wounded in both legs by a shell in the battle at Dallas, Georgia. He said that he was not in the regiment long but was glad of the privilege of once having been a member.

#### "Hamilton's Badger Boys"

Mrs. Winbiger sang "Hamilton's Badger Boys," and was greeted with a storm of applause. Gen. C. S. Hamilton was the first colonel of the regiment. Thomas H. Ruger, a brother of Edward and William Ruger of this city, was also a colonel of the regiment. He is now a major general on the retired list and is living in Connecticut. He will not be able to be present at the reunion.

#### Story of Old Black Ox

Just before the conclusion of the campfire Capt. Hinchley read a story of "Old Black Ox," written by the late Secretary Goodhill for the 29th annual reunion of the 2d Massachusetts. It was the last article written by him and was a piece of fine description. "Old Black Ox" in life was a member of Company C, named Orville Royce.

#### Present at Reunion

Those who were present at the reunion last night were: Lieut. Thos. Nelson, Co. E, London, Wis.; Geo. Spaulding, Band, Brookfield; A. A. Townsend, Co. I, Shullsburg; H. A. Beckwith, Co. H, Shullsburg; W. B. Smith, Co. H, Beloit; Mrs. W. B. Smith, Beloit; Jesse Longfield, Co. K, Madison; S. O. Bishop, Co. E, Janesville; J. F. Carle, Co. E, Janesville; B. M. Bucklin, Co. K, Janesville; Col. E. O. Kimberley, Band Leader, Janesville; P. I. Eriahl, Co. K, Evansville; L. Post, Co. K, Mt. Horeb; W. Halsey, Co. K, Beloit; John D. Black, Co. H, Shopiere;

## WITH LINK AND PIN.

North-Western Road.

The railroad men along the tracks this morning were inclined to be incredulous over the record run reported to have been made by a gravel train from Cary, Ill., in this column yesterday. Cary is 38 miles this side of Chicago. It was pointed out that the passenger train that leaves Chicago at 8:05 a. m., does not reach Fond du Lac until 4:07 p. m. Fond du Lac is 65 miles from Green Bay and a gravel train would in all probability be delayed on account of the many passengers leaving that city over the single track. At the yard office it was reported that the gravel train had not yet returned from Green Bay.

"Little Mike," one of the goldfish in the aquarium at the round house who the railroad men will solemnly assure you, comes to the surface of the water when his name is called, was missing yesterday. A careful search was made without result and his disappearance was credited to "Phil," the round house cat, who is said to be something of a diver. The little fish, however, was discovered in his accustomed haunts this morning. He had been hiding in one of the tiles in the bottom of the fountain.

Conductor Wheaton is relieving Conductor Leahy on the Fond du Lac stock run.

Engineer C. A. Hesche is relieving Engineer Mallon on the Fond du Lac stock runs.

Engineer M. Smith returned to his run on the Chicago way freight this morning.

Marzluff Bros., boilermaker's helper at the machine shops, went to Watertown this morning.

William Connell, fireman, went to Bass Creek yesterday.

Engineer A. R. Gridley on the Wisconsin division reported for duty this morning.

New cast iron jacks, in place of the galvanized variety, were placed on the tops of the gatehouses this morning.

Locomotives 1135 and 1136, two large new ones for the freight service were expected to arrive from Chicago this noon.

Switchtender Tom Griffin was relieved temporarily by George Bidwell last night.

General Foreman Fox went to Rockford this morning.

Machinist Neil McVicker went to Mineral Point last night to call a leak in locomotive 814. He worked there all night.

The Southern railway has purchased several thousand acres of mineral land in Tennessee and Kentucky.

A. L. West of Galesburg has been made a division freight agent of the Galesburg division of the Burlington road.

Roads composing the Transcontinental Passenger association will hold their next annual meeting in Chicago, Oct. 20. Nothing of importance is on the docket, but the members have until Oct. 3 to send in subjects which they desire to have considered.

The Grand Trunk railroad has built a new station at Durand, which is said to be the busiest railroad junction in Michigan. The new depot is 250 feet long and the dining room is capable of seating 200 persons at one time. Between 4,000 and 5,000 persons pass through Durand daily.

In line with its policy of keeping pace with rapidly growing fruit traffic in California and to keep independent of private car lines, the Santa Fe has placed another order for refrigerator cars. The recent order is for 350, making 850 during a month. The cars, which will be built at Terre Haute, are to be delivered at the rate of half a dozen a day.

The Chicago, Milwaukee & St. Paul railway company has purchased twenty miles of the Marinette, Tomahawk & Western road, a lumber and logging railroad, built and operated by the late W. H. Bradley. The purchased portion runs from the southern portion of Lincoln county to a point within four miles of the Milwaukee road near Merrill. The purchase price is not given.

At the annual meeting of the American Railway company yesterday in Camden, N. J., all the present directors were reelected. Later the directors organized and reelected J. J. Sullivan president, C. S. Tinkley secretary, and W. A. Perkins treasurer. The annual report showed the net earnings to be \$274,691, surplus, \$50,917. The company operates street railways in Illinois, New Jersey and Pennsylvania.

## ADVERTISING MADE THE FAIR

WALWORTH COUNTY'S ANNUAL EXHIBIT A SUCCESS.

### PRINTERS' INK THE CAUSE

The Secretary and President Tell of Their Methods of Gaining Publicity.

It is a lesson to advertisers all over the country the manner in which the Walworth county fair draws crowds, despite the cold weather and bad conditions of the track and grounds. Yesterday, twenty-five thousand visitors shivered and wrapped themselves in their overcoats, but continued to stay on the grounds. Of course the Elkhorn fair has its traditions but even the management admits that it is advertising pure and simple that has made it the success it is.

Success Due to Promotion. When the officers and those interested in the success of the fair were asked to state why it was such a distinctive success, coming to the limited field drawn from the reply, uniformly, was made, that its success was due to the work of promotion and advertising. As a matter of promotion, it can be cited that today, in addition to the regular trains, six excursion trains were run into Elkhorn, coming from Milwaukee, Rockford, Racine, Janesville, Libertyville, and Madison. Every excursion ticket bears a coupon admitting the holder to entrance to the fair.

In addition to its promotion, the fair association is a liberal advertiser, using the country press to a large extent, and the billboards of the county fair can be seen all over the parts of Wisconsin and Illinois within 100 miles of the grounds.

Besides these two essentials, to the holding of a successful fair, the officers make a business proposition of the project. Just as soon as one fair is over they begin work on the next. After the meeting of the association is held plans for the next year are made and these plans are executed. The Elkhorn fair, in fact, is a proposition which commands the business attention and consideration of every man connected with it.

Secretary Mitchell can probably best state why this fair is such a decided success year after year.

"We have approximately 7,500 entries and exhibits this year," said he, "the largest number in many years. We advertise the fair in every possible way, making a liberal use through the columns of the papers and secure the cooperation of the railways in the way of daily excursions. Every paper for forty miles around is a friend of the fair."

#### Commence Early in Year

"We commence early in each year looking up attractions and hooking them. We arrange the running of excursion trains so that the people have no trouble in getting here. Today some of the trains had to use two engines to pull the trains into Elkhorn. We commence early in each year to prepare the holding of our fair and keep at the work until we are through with it. During the month of May I sent out 10,000 circular letters to exhibitors in Wisconsin, Minnesota and Illinois. "So far as special attractions are concerned, I can say that a showman, one who knows the kind and quality of shows, will do better than any ordinary fair secretary. It needs a man who will put in his entire time and attention to the work. He never permits the removal of an exhibit until the last day of the fair, and goes to it that the exhibits are properly placed on the opening day."

Cost Small in Comparison. When the results achieved here are considered, it appears that the cost is small in comparison. Secretary Mitchell said in this regard: "We spend in promotion and advertising about \$2,000 annually. A man to run a successful fair must be familiar with every detail. When you get your exhibitors you want to take care of them."

President W. P. Dunlap gave the opinion that the success of the Elkhorn fair was due to the amount of promotion and advertising it received, and that every man connected with the fair worked day and night to make it a success.

One of the best showings made on the fair grounds was in the horse department, noticeable for the large amount of Belgian and Percherons and German coach horses. While the display in cattle was not up to that of the state fair, several of the show herds at Milwaukee were also on exhibition there, including the Jersey herd of E. A. Smith of Illinois, the only Jersey showing made at the state fair. An exceedingly large display was made in the hog department, and the showing in the sheep department was considered larger than at the state fair.

## HIGH SCORE MADE AT CLUB SHOOT

The Shoot Yesterday Was Interfered With by the Wind—McVicker's Lead.

J. H. McVicker made the high score at the Janesville Gun club's shoot at Athletic park yesterday. It was the occasion of the regular bi-weekly shoot at inanimate targets. The wind interfered somewhat with the scores and made difficult shooting; but two twenty-five bird events were held. J. M. McVicker made the high score on the two matches, breaking 43 out of 50. In the second match Wm. McVicker broke 21 out of 25, making a run of 21 straight.

On account of the shooting season being at hand and the fact that a number of the members not caring to shoot, the regular club matches

will be discontinued until after the duck season ends. Yesterday's score was: W. M. McVicker, 16; J. H. McVicker, 21; A. E. Klenow, 20; E. Roessling, 18; G. W. Field, 13; H. VanGilder, 12; out of a possible 25.

The directors of the Northern Pacific road held a brief meeting in New York yesterday, and it is said, the annual report was gone over in a general way. It was officially stated that the resignation of Chas. S. Mellen was not presented.

## FIRE SAVES CROP FROM THE FROST

United States Government Says, Burn Damp Material in Gardens Where Frost Threatens.

United States government officials say that a successful and economical fight against frost can be maintained during a spell of weather like the present one by fires. Gardens can be saved by placing slow burning material such as damp straw in different parts of the lot and even greater areas can be protected in a like manner. Large fields of wheat and corn have been saved in this way, and the plan has been tried in the large wheat sections of the Dakotas and on the fruit farms of California. When fires of this kind are employed for this purpose the smoke usually hangs close to the ground and keeps the heat from rising into the air so that the fire actually warms the atmosphere. Another reason for the beneficial results to threatened crops from early frosts is the fact that considerable moisture is formed in the surrounding atmosphere caused by the burning of the damp material and when this is condensed by the cold it gives out a certain amount of heat.

## SALVATION ARMY ASKS CONTRIBUTIONS

Their Annual Harvest Home Comes this First Week in October.

There is probably no section of the country, certainly no community or class, which the influence of the Salvation army has not in one way or another permeated, never ceasing its work, adapting itself to all times, seasons and places. It has converts, lovers, and friends in probably every town and village throughout the land.

Thus it is that, be the season what it may, the Army's seasonable efforts what they may, there is always throughout the country an interest quick to respond. While the cold of winter and early spring are with us we hear of the Army's gigantic operations in supplying coal, clothing and sustenance to the wretchedly poor; when the summer is under way we learn of the noble charities in the shape of fresh air camps outings, excursions and the like, as also of the Penny Ice wagon, then with the coming of fall comes the annual Harvest festival, the year's last special effort until that huge Christmas dinner begins to loom up.

Confronting us just now is the Harvest festival, the dates of which are set for Oct. 5 and 6, inclusive, and for the celebration of which the local corps is making active preparation. The character of this annual event is too well known by this time to require any definition. It is, in fact, a special season of thanks giving and yielding to God for His use in the Army anything and every thing that may have either pecuniary value or practical utility.

## GAME WARDENS TO WATCH GAME

Minnesota Duck Hunters May Be Nabbed by the Vigilant Warden.

It is said that the Minnesota duck hunters who come across the Mississippi river to shoot on the Wisconsin shore, without going to the trouble and expense of securing a Wisconsin license, will be apt to find a deputy game warden waiting for them. Several deputies have been sent into that section of the state to watch for such offenders, it being believed that a number of them are planning to evade the law. This suspicion is due to the fact that only about half as many Minnesota hunters have secured Wisconsin licenses this year as last, and several of those who have secured licenses are new hunters. Nearly all the duck shooting along the Mississippi between the two states is on the Wisconsin side, owing to the fact that the Minnesota shore is principally bluffs, while the Wisconsin side is mostly low and marshy.

The number of non-residents who are coming to Wisconsin to hunt this fall is larger than ever before the total number of non-resident licenses issued to date being 174, as compared with 131 at the same time last year, and 36 the year previous. Seventeen licenses which include the right to shoot deer have thus far been issued, as compared with 18 at the same time last year. For some reason most of the non-resident deer hunters come from Indiana. The one who will travel the farthest for his deer, as well as one of the oldest, is J. E. Low, who comes from Green Cove Springs, Fla. He is 65 years old, and will do his shooting in Marinette county.

The number of resident licenses promises to fully equal that of last year. Settlers' licenses, for people who have become residents of the state within a year, have been issued to the number of 69.

Fine Corn: Michael Miro, of Fulton, has brought in two ears of seed corn which are beauties. They are well formed and every kernel is filled out to the bursting point.

## CROP REPORT IS NOT FAVORABLE

DIRECTOR WILSON TELLS OF THE PAST WEEK.

### THE OUTLOOK NOT PLEASING

Continued Cold Weather Has Not Improved the Chances for a Good Crop.

The weather continued unsettled throughout the week, with heavy to excessive rains in all parts of the state. The rainfall was especially heavy in the western and northern counties during the latter part of the week, when a storm of unusual severity passed northward along the western border. Very little threshing was accomplished and there was considerable grain in the shock and stack in a more or less damaged condition. Some fall plowing was done on high, well-drained land, but in most sections of the state the soil is too wet to work. No damaging frosts are yet reported, but the conditions are shown by the weather map on Monday morning, strongly indicates that a heavy frost would occur over the northwest and probably in exposed localities in the western and central counties.

Corn. The temperature conditions were mainly favorable and as a whole corn made considerable advancement towards maturity. Some well worked field on high land are ready to cut, and a very few pieces are already in shock. The bulk of the crop, probably 75 per cent, needs from ten days to two weeks of good weather to mature. Many farmers are cutting their corn for fodder, having given up hope of its reaching maturity.

Potatoes. The week has been unfavorable for potatoes, and reports of blight and rotting continue. There are a few localities in the southern and central counties where the blight is not serious, but elsewhere it is very general. The continued wet weather has caused the rotting to increase and the present condition of the crop is extremely discouraging.

Tobacco. The harvesting of tobacco was interfered with to some extent by the rains, and in many localities the lack of sufficient facilities for storing. The crop is very large and the quality generally considered excellent. There is considerable tobacco still in the fields.

Minor Crops. Buckwheat is generally ripe and the bulk of the crop has been harvested. It is generally considered a very satisfactory crop. Sugar beets are about matured and a large acreage will be secured this week. The crop is large and the quality excellent. Second crop clover is a heavy crop, but lacking in seed. Pastures are excellent.

Fruit. Apples are light but of good quality. The picking of cranberries is progressing rapidly. The berries are of good quality, but the crop will be somewhat below the normal. There is an abundant supply of water in the reservoirs to protect the crop against frost, so that there is but little apprehension of damage from this source.

Southern Section. Beloit, Rock county: Raina Jelaying farm work; corn and tobacco maturing very slowly; a large acreage of tobacco still in the field.—A. C. Powers.

Afton, Rock county: Some farmers will begin cutting early corn next week; tobacco harvest practically completed; some potatoes rotting.—U. G. Walte.

Corliss, Racine county: Corn making very little progress, and crop practically a failure; potatoes rotting badly; threshing about completed.—A. S. Fancher.

Gay's Mills, Crawford county: Some corn in shock; crop about safe; tobacco crops too large for sheds; potatoes rotting and a light crop.—J. L. Stowell.

W. M. WILSON, Section Director.

## It's Easy...

We refer to our easy payment plan on securing a piano. Call in and we will explain.

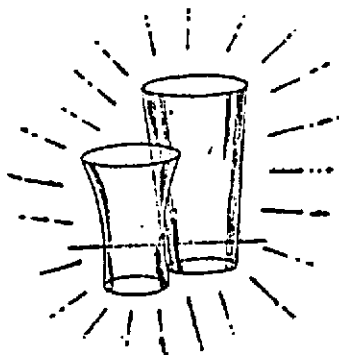

S. C. BURNHAM & Co. HAYES BLOCK

When you look in the glass and find you are changed, don't delay but restore the bloom of childhood days, take A. B. C. Family Tea, 25c a package. Badger Drug Co.

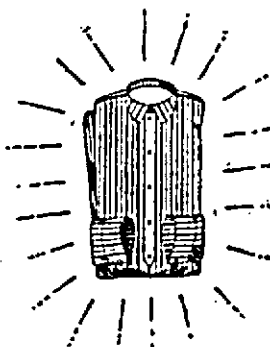

**SHIRTWAISTS** are too expensive an article of apparel to risk with careless washing. If they are washed with ordinary soaps or cleansers they are apt to become gray or yellow with age. If washing powders are used, the delicate fibre soon corrodes so that they wear out much sooner than they should. If they are colored, the colors are apt to fade with the continued washing.

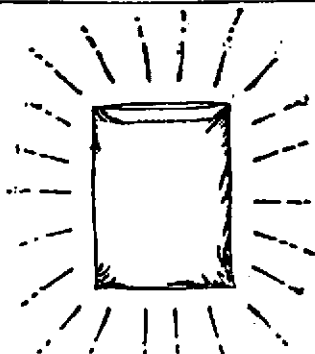

When 20 Mule Team Borax is used, according to the directions on the package, each washing brings the shirtwaist out fresh and new looking; the colors are set by the Borax (chemists use it for that purpose continually) and the delicate fibre of the material is preserved against corrosion so that the shirtwaist is given unusual wearing quality. The dazzling brightness of shirtwaists washed with 20 Mule Team Borax is striking, and the washing is beautifully easy.

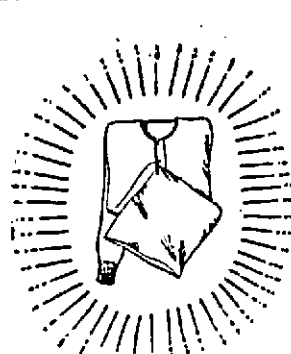

**GLASSWARE** comes out of a 20 Mule Team Borax washing as clear as crystal. The last trace of greasiness is quickly removed by it. Directions are on the package.

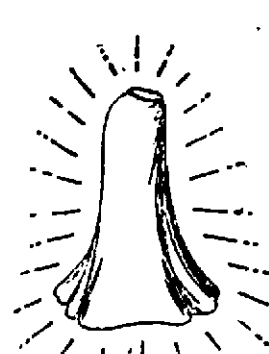

**BOYS' WAISTS** are generally a sight when they are put in the wash. They come out beautifully fresh and clean when 20 Mule Team Borax is used according to the directions on the package. The cleansing is done very quickly. 20 Mule Team Borax is also excellent for making starched goods stiff. It should be added to the starch as directed on the package.

**PILLOW CASES** are difficult to cleanse properly because of the greasy soil which they get from the head. 20 Mule Team Borax quickly brings them out a dazzling white. Sheets, too, are best cleansed with 20 Mule Team Borax.

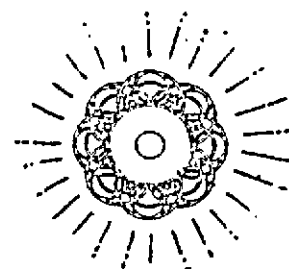

**FLANNELS** soon become matted and hard when washed in the ordinary manner with soap. 20 Mule Team Borax used in washing flannels keeps them fluffy and soft and agreeable to the skin. It brings them out sweet and fresh and prevents shrinkage if the directions on the package are followed.

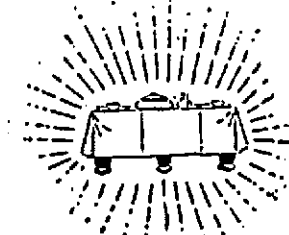

**WASH GOODS** should never be washed without 20 Mule Team Borax. It sets the colors and brings the goods out dazzling and fresh looking. Directions are on the package.

**DISHES**, even after the most thorough washing with soap are apt to feel greasy. If you wash them with 20 Mule Team Borax, following the directions on the package, you will find this to be the result: the grease is rinsed off like magic; before you dry them with the towel they send out a clear rosy sound when you rub your fingers across them, showing that the grease is thoroughly removed from the surface; they dry very quickly under the towel, further showing that all grease has been removed. On top of this, you will find that your hands are softened by the Borax in the water, instead of being roughened by the dishwashing.

**TABLE LINEN** is difficult to cleanse and delicate to handle. The linen fibre corrodes quickly when washed with ordinary cleansers, and the grease in the table cloths and napkins resists soap. Both napkins and table cloths come out dazzling white very easily when 20 Mule Team Borax is used, and the delicate linen fibre is preserved against corrosion. Directions are on the package.

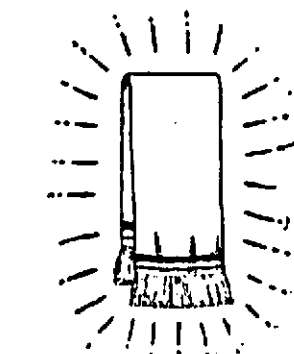

**HANDKERCHIEFS** are made to look like new when 20 Mule Team Borax is used in the washing. They come out dazzling white very quickly. Directions are on the package.

## The greatest cleanser the world has ever known is 20 Mule Team BORAX

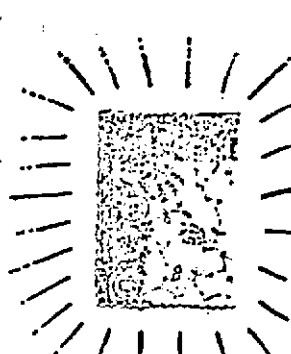

It cleanses like magic, brings clothes out a **DAZZLING WHITE** and at the same time it sets colors (chemists use it continually for that purpose) and preserves the delicate fibre of materials against corrosion, thus adding to their wearing quality. Directions are on the package.

It is a great boon to womankind for **MONDAY'S WASHING** and the **DAILY DISHWASHING**. Sold by druggists and grocers.

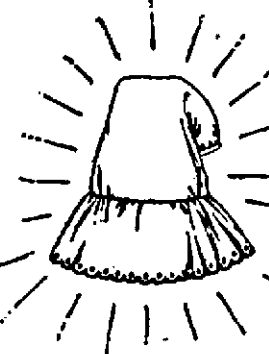

We will send you free, if you write today, a package of 20 Mule Team Borax, which will very quickly show you its remarkable value for laundry purposes and dishwashing. Be sure to address Department OD, Pacific Coast Borax Company, Chicago.

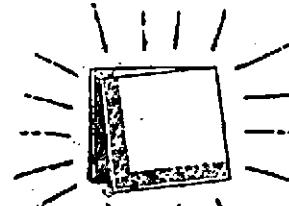

**TOWELS** take up a somewhat greasy soil from the face or from dishes as the case may be. This greasy soil is best removed by the use of 20 Mule Team Borax. It brings the towels out of the wash a dazzling white and accomplishes the washing very easily. Directions are on the package.

**LACE CURTAINS** should never be trusted to ordinary cleansers which corrode the material so that they tear easily. 20 Mule Team Borax cleanses them beautifully and preserves the delicate threads against corrosion so that the curtains wear exceedingly well.

**LINEN** that has become gray-looking by continued washing will quickly come out a dazzling white when 20 Mule Team Borax is used. Old-looking wash goods are thus made new looking and the washing is beautifully easy. The fresh, pure fragrance of clothes washed with 20 Mule Team Borax is noticeable.

### VANDERBILT MAKES BIG COUP

Millionaire in Wall Street Raid Cleans Up Over \$10,000,000.

New York, Sept. 18.—One of the biggest coups in Wall street during the recent bear raid was made by young Cornelius Vanderbilt. He cleaned up \$10,000,000. It was said, using a margin of \$2,000,000. His fortune is said now to exceed \$20,000,000 in all. Most of his Wall street profits were made in Brooklyn Rapid Transit and Southern Pacific.

### REPORTER IS HELD FOR DEATH

Harry Irwin Accused of Giving Man Fatal Doses of Morphine.

Marquette, Wis., Sept. 18.—Harry Carter Irwin, a reporter on a local newspaper, is under arrest to await the result of an inquest over the body of Charles Boynton, a jeweler. Irwin is charged with having administered several doses of morphine to Boynton while the latter was ill. Irwin has worked on papers in New York, Washington and Boston.

### Conventions of W. C. T. U.

Chicago, Sept. 18.—Plans are being completed for the coming conventions of both the county and the state W. C. T. U. The former will be held Sept. 23 and 24 in the First Methodist church of Evanston and the latter Oct. 13 to 16 in the Association building in Chicago.

### W. R. C. President Dies.

Beloit, Wis., Sept. 18.—Mrs. W. H. Grinnel, past department president of the Wisconsin Woman's Relief corps, died from appendicitis. Mrs. Grinnel was a brilliant woman and had been a popular speaker at Grand army and relief corps events throughout the state.

### Old-Time Minstrel Dead.

New York, Sept. 18.—Edwin French, widely known as a minstrel, died at Saranac Lake, N. Y., from a complication of diseases. French began his stage career in the early days of minstrel shows, and for years was identified with leading troupes.

### Liverpool Cotton Firm Falls.

Liverpool, Sept. 18.—The failure of John Wrigley & Sons, a firm prominent in the cotton trade is announced. The house, it is stated, sustained heavy losses in trading and could not meet the differences in the clearing-house.

### Indicted in Postal Cases.

Washington, Sept. 18.—The federal grand jury has returned three indictments in the postal cases, involving two persons, one of them being a joint indictment. The names of the indicted persons were not made public.

### HAWAIIANS SEEK STATEHOOD

County Conventions Urge That Vigorous Fight Be Made.

Honolulu, Sept. 18.—The Republicans of the five counties comprising the commonwealth of Hawaii have met in convention to nominate candidates for the various county offices which are to be filled by ballot Nov. 3, the election being the first to be held under the new county government act. The conventions nominated mixed tickets, the natives running well with the whites in the contests for places on the tickets.

### Cairo Wins Pennant.

Calro, Ill., Sept. 18.—The K. I. T. league pennant has been won by Cairo by a close margin over Clarksville. The other clubs finished in the following order: Jackson, third; Henderson, fourth; Paducah, fifth; Hopkinsville, sixth.

### Prominent Jurist Dies.

Washington, Sept. 18.—James Kerr Kelly, former United States Senator from Oregon and at one time Chief Justice of the Supreme Court of that state, is dead in this city, where he has lived for many years.

### Confederate Reunion.

Lexington, Ky., Sept. 18.—The state reunion of confederate veterans was held here. Among the distinguished guests were United States Senators McCreary and Blackburn, Morris B. Belknap, the Republican candidate for governor, and Gen. Simon Bolivar Buckner, Belknap's father-in-law.

### Rector Defies Bishop.

Milwaukee, Wis., Sept. 18.—Rev. William Austin Smith, who opposes the plan to change the name of the Episcopal church, openly takes issue with his bishop, who favors the proposed change. He is rector of St. Paul's church and says the old name is good enough to be retained.

### Mexican Veterans Elect.

Indianapolis, Ind., Sept. 18.—The National Association of Mexican Veterans elected the following officers: President, James C. Carlton, Bedford, Ind.; vice president, S. P. Tufts, Centralia, Ill.; secretary, Mrs. Moore Muddock, Fort Worth, Tex.; treasurer, Leroy Wiley, Paris, Ill.

### Hotel Man is Killed.

Marletta, O., Sept. 18.—Joseph Holden, proprietor of the Bellevue hotel, was instantly killed by a heavy timber which fell through the elevator shaft from the fourth story and struck him on the head while he was fixing the elevator machinery in the basement.

Salisbury Left \$1,551,680.  
London, Sept. 18.—The probating of Lord Salisbury's will showed that he left an estate valued at \$1,551,680.

## BITTER SWEETS

**Fresh..  
Saturday**

## NEW INDUSTRY.

A new industry is offering itself to the farmers and manufacturers of the United States. The fact that 25 million dollars' worth of goatskins are now annually imported into the United States, and that their enterprising manufacturers are now obliged to send half way around the world for a large share of them, suggests that the farmers of the country have a great opportunity to put a large share of this sum into their pockets, and that the entire sum may be divided between our producers and manufacturers.

A statement just presented by the Department of Commerce and Labor through its Bureau of Statistics, shows the importations of goatskins into the United States are now running at the rate of 25 million dollars per annum, and that a large share of these are brought from India, China, Arabia, and southeastern Russia. The increasing popularity of certain classes of kid leather for footwear, as well as gloves, has increased very greatly the demand for goatskins in the United States within recent years. In 1885 the value of goatskins imported was about 4 million dollars by 1890 it had grown to 9 millions, by 1898 it was 15 millions, in 1900 it was 22 millions, and in 1903, 25 millions, in round numbers.

Of this large sum of money sent out of the country to purchase goatskins, 7 million dollars went to India, nearly 2 million to China, 2½ millions to France, 1½ millions to Russia, 1½ millions to Brazil, 1 million to Argentina, and another million to Arabia. From India, which took less than 5 million dollars' worth of merchandise of all kinds from the United States last year, and has increased her purchase from us less than 2 million dollars in a decade, we have increased our importations of goatskins alone from 2 million in 1892 to 7½ million dollars in 1902. From Brazil, which has reduced her imports from the United States from 15 million dollars in 1895 to 10 million dollars in 1903, our purchases of goatskins last year was 1½ million dollars. France, Russia, the United Kingdom, Turkey in Europe and Turkey in Asia, Arabia, China, southern Africa, Argentina, and Mexico also contribute liberally to the supply of goatskins to make up the 25 million dollars' worth of this product brought into the United States annually.

The farmers of the United States are apparently making no effort to reap any part of this golden harvest for themselves. The census of 1900 showed the total number of goats in the United States to be less than 2 millions in number, and when it is understood that the skins of probably 20 million goats were required to make the 25 million dollars' worth imported last year, it would be seen that the supply from the United States could have formed but a small share of our supply of this important import comes from India, China, France and Mexico suggests that there are large areas in the United States which might produce goats successfully and in sufficiently large numbers to supply the entire home demand.

It seems hard to believe that all the last two legislatures were debauched by the lobby and that many of them were so drunk that they could not vote intelligently on matter brought before them. It is too bad they could not tell La Follette's plans from those of that awful corrupt lobby we have heard the governor tell of so much, this last summer.

That talk of killing frosts and furies on the board of trade have all tended to make people firmly believe that winter is really coming. Well it is and a careful inventory of last winter's overcoat and the coal bin will convince you more than ever that this a fact.

The Journal and Northwestern be-

lieve that they are doing all the work of the present pre-campaign but they are not. The governor is helping the opposition cause along right merrily with his little hammer and sharp ax.

## BEFORE THE GREAT JUDGE

T. J. Grazedale  
 T. J. Grazedale, a well known farmer in Rock county, died last night from the effects of a stroke of paralysis received yesterday afternoon while superintending work on his farm near Beloit. Mr. Grazedale was seventy years old and had lived in this part of the county on his farm for 64 years. He came from Buffalo and was one of the earliest Norwegian settlers in the town of Newark. W. O. Hansen and Ed. Hansen of Beloit and C. E. Inman of this town are relatives of the deceased. Mr. Grazedale had been overseeing some improvements on the farm at 5 o'clock yesterday afternoon and was later found sitting on the ground suffering from the attack. He died during the evening.

Bridget Fanning  
 The funeral of the late Miss Bridget Fanning of the town of Harmony was held from St. Mary's church at 9 o'clock this morning. The Rev. Father Goebel officiating. The pallbearers were Bartlett Fanning, William J. Fanning, Miles P. Fanning, Stephen Fanning, Milley P. Fanning, and John J. Fanning, all cousins of the deceased. There were over one hundred carriages in the funeral cortege. Interment was at Mt. Olivet.

Baby Fox  
 The infant son of Mr. and Mrs. L. Fox of Milton avenue died of cholera infantum after a short illness this morning. The child was six months old. The funeral will be held tomorrow and the interment will be at Milton Junction.

Arthur Spence  
 The funeral of the late Arthur Spence will be held from the residence, 202 North Franklin street, at 2:30 p. m. tomorrow.

## GUESTS AT THE HOTELS

GRAND—W. E. May, G. H. Christman, Louis Foss, J. B. Sangan, F. E. Scott, Madison; L. L. Whittier, A. K. Templeton, W. S. Harmon, W. F. Maas, H. C. O'Neill, Milwaukee; C. O. Davis, Oshkosh; Geo. T. Spaulding, Brodhead; Mr. and Mrs. J. W. Cooper, Whitewater; Clinton Babbitt, C. W. Goldworthy, Beloit; G. F. Anderson, Waukesha.  
 MYERS—Geo. W. Kemp, Madison; Geo. Willbur, Beloit; W. E. May, Madison; Lloyd Erickson, Appleton; J. B. Hutchins, H. M. Vaughn, J. J. Kempf, H. M. Holton, Milwaukee.  
 PARK—Abner Avelth, Albany; Thomas Nelson, London; James Driver, Darlington; Geo. T. Spaulding, Brodhead.

George Robinson has been added to the Saturday force at the D. J. Luby & Co's. new shoe store. Special meeting of Lodge 385, B. of L. F. will be held Saturday, Sept. 19th, at 2 p. m. to meet Vice Grand Master Timothy Shea. And Oblige, J. D. Falter.

Mrs. Herbert A. Ford entertained at cards last evening. Dainty refreshments and a delightful time was enjoyed by the party.

All comrades are requested to meet at Post hall this evening at 7:30 o'clock to attend the campfire of the 3rd Wisconsin. A. F. Lee, commander; C. D. Childs, Adjt. Attorney Frank McNamara of Hayward, Wis., is the guest of his parents, Mr. and Mrs. H. L. McNamara, in this city.

## FROSTS SEVERE IN ROCK COUNTY

REPORTS CONFLICTING AS TO  
DAMAGE DONE CORN.

## TOBACCO CROP IS ALSO HURT

Ice an Inch Thick Found on Road—  
Some Think Corn Is Ben-  
efited.

Frost committed general havoc in Rock county last night and while the damage done was not so great as was feared that it might be yesterday afternoon and evening, it was general throughout this section. Doing a little damage everywhere and in some townships the corn suffered badly.

**Most Tobacco Safe**  
As the greater part of the tobacco crop is harvested and out of harm's way, the damage to this crop was limited, but considerable that was not cut was touched by the frost and on some farms the harvesting was continued yesterday afternoon and this tobacco which was on the ground, was also hurt more or less but in many cases not enough to ruin the crop.

**Severe East of Town**  
Crops in the town of Harmony, near the Janesville farm is said to be in rather bad condition but the reports from some parts of the county are conflicting. A number of farmers who were at Dave Brown's feed store this morning, spoke jubilously concerning the outlook but several from south of the city did not appear to think that the results of the "freeze" would be serious. One man who came to town early from the east, said that in places there was ice over an inch thick covering the puddles on the road.

**Says Crop Is Ruined**  
R. J. Clark, who has sixty acres in corn about six miles east of Janesville said this morning that his corn crop is partially ruined and that he does not expect to harvest more than half of it. He says that his neighbors in that section have also suffered severely. The tobacco that had not been cut was not hurt so far as he could see. The tomatoes which have run to vines owing to the recent wet season are also in bad shape.

**Northwest of City**  
G. D. Charlton whose farm is located about two miles northwest of the city, was in Janesville this morning. He said the corn and other crops were not hurt in that section.

**Say It Is a Good Thing**  
Not a few of the farmers who were here this morning were of the opinion that a frost just at this time if followed by a spell of warm weather as seems likely to be the case now, is the best thing that could have happened. The corn they say was still in the milk and it was highly desirable that something should happen to stop the growth, and give the grain a chance to ripen. The stalks, of course, will be of little use as fodder.

**Tobacco Crop In**  
M. F. Green said this morning that about 98 per cent. of the tobacco was in, so far as he could judge, and whatever was touched by the frost was not seriously damaged. The leaf was not blackened though it might show in the veins. Mr. Green made a trip through the country with horse and buggy this morning for the special purpose of sizing up the situation. The cold dry weather now will be just the thing for the leaf in the sheds.

## NEWS OF A PERSONAL NATURE

Wilson Lane was in Beloit yesterday on business.

P. A. Marsh of Chicago is in the city, the guest of P. Hohenadel, Jr. John Hurd of Edgerton was here on business Thursday.

P. P. Erdahl, of Evansville, was in the city yesterday visiting friends.

Raddad S. Gazelle of Palestine, Syria, is a guest at the Grand hotel. Rev. J. T. Henderson returned from the Presbyterian conference yesterday.

Miss Nellie Kavanagh has returned home from an extended visit at Crookston, Minn.

All Macabees who intend going to Beloit Monday should be at Baker's drug store at 1 o'clock.

Thomas B. Thompson of Beloit visited in the city yesterday.

Dr. J. S. Wernham and wife of Marengo, Ill., spent yesterday in the city.

Miss Edna Murdock will attend a party in Beloit this evening.

Tomorrow is tooth brush day at the People's Drug Co.'s store. Thirty-five-cent brushes, 21 cts.

## TOBACCO CROP FEARS A FROST

GENERAL CONDITION OVER THE  
COUNTRY NOT GOOD.

## RIDERS ARE NOW VERY BUSY

They Are Buying Green Tobacco in  
the Fields at a Fair  
Price.

The buying of the new crop in the field continues this week as last, and in Vernon county over 100 acres have been secured in this way. As has been previously stated, the condition of this year's crop is not up to the average, and the fact that the dealers are willing to risk taking the tobacco in a green and unsecured state, there being a large element of chance in so doing, indicates better than anything else the demand there is for leaf of all grades. The work of harvesting goes merrily on as the fields mature and ripen, the tobacco coming to the sheds in fairly good condition. It is hoped that the growers will be able to harvest the late set tobacco before the frost, but the chances are against it, and if frost occurs as usual this year a large part of the crop will be cut off. The cured leaf market shows more activity than for some weeks past, some fair sized transactions having been reported. Sampling of last year's packings is going on, and it is generally found to have sustained but little damage in the cure. Shipments out of storage at Edgerton for the week are 500 cases.

**Government Estimates**  
The government estimates issued for the month of August shows that the New England crop lost five points in the percentage of condition during the month. This set back was caused chiefly by the hailstorm damage and unseasonably cool weather. The work of harvesting is the order of the day. A portion of the tobacco is good, but in almost every field there are some streaks of poor and yellow leaf, and in some fields this predominates. The growers of broad leaf are much encouraged by the prices that their last year's crop is bringing and at the prices paid for the growing crop by speculators. A number of sales of this type has occurred. If frost holds off long enough the late crop, which bids fair to be the best, will be safely harvested.

**In New York.**  
In New York as elsewhere, the work of harvesting is occupying the growers' time, though the backward condition of the crop in general has put New York somewhat behind other tobacco growing sections in this respect. The fields are ripening as they grow, irregularly, which makes it difficult to estimate the probable percentage as compared with a normal year, but it is definitely believed that the yield will be much under the average, and there is widespread doubt as to the possibility of the late set crop maturing before frost. The cured leaf market is moderately active.

The work of harvesting is in full blast, and the prospects are that the crop will be fully equal in yield to that of an average year. There is some activity in the cured leaf market, and good prices are being paid for 1902 packings.—Journal.

## BRIDGE REPAIRS ARE FINISHED

FOURTH AVENUE STRUCTURE IS  
OPENED TO TRAFFIC.

## JACKSON STREET COMES NEXT

Crossing to Brook Will Have New  
Roadway—Began Work This  
Afternoon.

Fourth avenue bridge that has been undergoing extensive repairs for the past three weeks was this morning finished and open to traffic. The work was started under the street commissioner, J. H. Watson, and his assistant, Wm. Ross, superintendent of the work until the time of his illness and Foreman Bump has had charge of the work.

**Now a Strong Bridge**  
The appearance of the structure is now much improved. Over a dozen piles were sunk to strengthen and straighten the framework and these were further secured as well as the ones already in place, by lateral braces, which, it is thought, will prevent the tendency to sag down stream, due to the pressure of ice and water above the bridge, which is very great at this point. The roadway was entirely torn up and replaced with three-inch planks and a new railing placed along the side nearest town. The sidewalk was renewed in many places and new joists put in place and the railing on this side underwent extensive repairs.

The bridge at the foot of Jackson street will be the next one to receive attention and work began there this afternoon. An inspection will be necessary before the amount of labor to be done on this bridge can be estimated.

**New Roadway**  
New planking, however, will be put down along the entire length of the bridge and this will be the same as on the Fourth avenue structure. It may be found necessary, it is thought, to place some new piles under this crossing and part of the lower framework, braces, and joists may have to be removed. This will depend upon the condition that the bridge is found to be in when an examination is made.

### CALENDAR AT MYERS GRAND

Sept. 21—Walker Whiteside in "We Are King."  
Sept. 24—"Quincy Adams Sawyer."  
Sept. 30—"The Irish Pawnbroker."

Oct. 1, 2, 3.—Flora de Voss in Repertoire.

That tremendously popular rural play, "Quincy Adams Sawyer," which seems to be repeating everywhere its New York success at the Academy of Music, has many strong comedy features; yet it possesses touches of true pathos which prove that author, producer and the management have labored with good results to appeal to the sentiment that is close to the surface in every theatre audience.

The surroundings, the mise-en-scene of the last act, for example, are most effective in a novel, striking and powerfully appealing way. The rising curtain discloses the exterior of a farm house, wrapped in the folds of a New England snow storm. A moment is given to this picture, and the front wall of the house disappears and the action of the play goes on within it. The storm is indicative of the stress within, and the visual impression intensifies sympathy with the tribulations of the characters. Hope blossoms into fruition, as the action proceeds, and joy succeeds grief.

When the story has come to its happy end, the family group, which has been about the supper table, join in singing the "Dokology," and

an instant later the house exterior is shown, bathed in soft moonlight. The storm without has passed, as has that within, and the smoke which curls lazily from the chimney betokens peace and comfort. These contrasting scenes are most significant in symbolic beauty; like the famous last scene, of "Shore Acres" the last act of "Quincy Adams Sawyer" has moments which will be remembered long after recollections of the main story of the play has passed out of the mind.

Out of over eighty plays submitted him Mr. Walker Whiteside selected without hesitancy Lieutenant Gordon Kean's new comedy "We are King."

"I selected Lieut. Kean's play upon its first reading," said Mr. Walker Whiteside in a recent interview, because it appealed to me strongly as a fine play. Its plot is of absorbing interest worked out with unusual cleverness. The dialogue is brilliant. The dramatic situations of great strength and the comedy scenes delightful. The characters which its author has drawn are all strong. The play caught the popular fancy upon its first production. In fact there is not a bore or unnecessary role in the piece. Out of the eighty plays which I have read in the past year and a half only two besides "We are King" impressed me as being worthy of production. One is "King Kohentle" by a young western author as yet unknown and the other is "Herod the Great" by Emanuel Baruch. Both

of these plays I hope to bring out in the future, if they do not slip through my hands in the meantime. "It is no easy matter for an actor to correctly judge of an untried play's chances of success. If he himself is to appear in the play he must first take into consideration his own fitness for the role intended for him. Then he must throw self aside and look upon the play in its entirety. Certain scenes which might not appeal to him may be just right for his audiences. Characters which may seem weak in the reading of the manuscript may be capable of showing great strength in the hands of an excellent actor of creative ability. After all the author of the play has a serious and difficult proposition to face when he sends forth his play to be passed upon by actor or manager. Many a good play has gone begging for years only to startle its rejectors by suddenly enriching some manager who put it on as a 'stopgap' so to speak."

Mr. Whiteside and his entire company will present "We are King" in this city on Monday, next.

## ...Forty Years Ago...

Janesville, Daily Gazette, Friday, Sept. 18, 1853.—Gen. Daniel E. Sickles is rapidly recovering from his Gettysburg wound, which leaves him minus a leg. He made a handsome speech at Lake George the other day. Among his predictions was: "We shall have peace next summer."

Philadelphia, Sept. 18.—Rumor says a strong force of rebels crossed at Racoon Ford this morning and captured 150 of our cavalry. The rebels have strong patrols on the Rapidan but no great force.

Washington, Sept. 18.—The following has been received: Headquarters in Field, Via Chattanooga. All quiet. No attack has been made. The enemy remains in possession of the gaps in Pigeon Mountain, and above Lafayette. The enemy are in force 65,000 strong and the two forces are within a few miles of each other, but separated by a range of mountains.

New York, Sept. 18.—It is understood that Gen. Burnside acquiesces in the cordially expressed wish of the president to withdraw his resignation. The draft in Cincinnati has been postponed owing to an error of 5,000.

Spy Hunt in Lawrence.—John Calton, was tried in Lawrence on Monday, by a jury selected by the citizens. It was proved that he knew of the raid and moved his family out of town Thursday night. After being sentenced to be hung as a spy, he confessed that he came in with Quantrell and that he killed the widow Allen's daughter.

New York, Sept. 18.—Correspondence to the N. Y. Times, dated Paris, Sept. 14th, says: A most important change has taken place in European affairs. The Emperor Napoleon has turned a somersault, and now lies the dust at the feet of Prince Gortchakoff. His position of European dictator is at an end, and hereafter he will have enough to do to take care of himself.

Street Cleaner Loses Cart: Fritz Meisner, of the street cleaning force tried to empty the contents of his cart into the river at the foot of Dodge street yesterday afternoon and in doing so, not only the contents of the cart got in the stream but also the cart, which was followed shortly by Meisner himself. He could swim, so reached the shore in safety.

Toast  
"Here's to my lady-love, fair and sweet,  
Her eyes are charming, she's nob-  
by and neat;  
She has rosy cheeks, and a beauti-  
ful face  
She drinks A. B. C. Tea and is lead-  
ing the race."

## Lee Simons General Health Broken Down.

2717 Mills Street, St. Louis, Mo., August 28, 1903.

..Mr. Simons says.. "When I com-  
menced taking Paine's Celery Com-  
pound I was troubled with a gnaw-  
ing in my stomach; my appetite  
was gone, especially at breakfast  
and my eneral health was broken

the first bottle when I began to  
improve. I continued taking  
Paine's Celery Compound and now  
feel as well as ever I did in my  
life. I am sure Paine's Celery Com-  
pound is the greatest health-maker  
in the world."

CLEANSING  
AND HEALING  
CURE FOR  
**CATARRH**  
Ely's Cream Balm  
Easy and pleasant to  
use. Contains no in-  
jurious drugs.  
It is quickly absorbed,  
gives relief at once.  
It opens and cleanses  
the nasal passages.  
Always inflammation,  
breaks and protects the membrane, restores the  
function of taste and smell. Large Size, 50 cents at  
Druggists or by mail: Trial Size, 10 cents by mail.  
ELY'S BROTHERS, 50 Warren Street, New York.

**COLD IN HEAD**

Diamonds Are Meteoric.  
The strongest evidence favoring the  
meteoric formation of diamonds is the  
fact that they have a different law of  
crystallization from carbon of terres-  
trial origin. This proves them of me-  
teoric origin, just as the meteoric  
form of iron tells of its celestial birth.

Good Rule to Observe.

The best plan in managing these  
foreign names is just to follow copy  
and not try to pronounce them.

The

My family has  
never tired of Shredded  
Wheat. It can be served in so  
many different ways as to seem  
a new dish every day, both delicious  
and nourishing. Our physician recom-  
mended it in his carefully arranged system  
of diet.—Mrs. E. R. PENDLETON, Tioga  
Center, New York.

## SKIN TORTURES

Thousands of wretched  
people are miserable--driven  
almost mad by the terrible  
itching and burning sensation  
of Eczema and other skin dis-  
eases; many imagine they are  
suffering from bad blood,  
when as a matter of fact the  
blood has nothing to do with  
it. These awful tortures are  
caused by little germs that  
attack the skin externally,  
which can be rooted out in a  
hurry, leaving the skin clear,  
soft and healthy. Such misery  
now cleared away as surely  
as the sun shines above. Not  
merely attempted, not a mat-  
ter of improvement merely,  
not a temporary relief--but a  
clearing of it all away abso-  
lutely and permanently.
